APMG-INTERNATIONAL AGILEPM®

Foundation Training E-learning

Unlocking Agility for Professionals in Project-Focused Roles

The Agile Project Management (AgilePM) certification aims to address the professional development needs of those working in a project-focused environment who want to be agile. Employees who can improve their work processes by applying agile practices are more valuable to employers. So if you're a scrum master, project manager, or team member who wants to stand out in a team environment, this training course is for you.

What is APMG?

APMG-International AgilePM Foundation Training is a certification program designed to provide individuals with a comprehensive understanding of Agile project management principles and practices. AgilePM, which stands for Agile Project Management, is a framework that focuses on delivering projects in a flexible and iterative manner, emphasizing collaboration, customer satisfaction, and adaptability to change. The training program is aimed at project managers, team members, and anyone involved in project management who wants to learn about Agile methodologies.

Learning Objective

Aside from becoming a certified project management professional, this training course will teach you to:

1. The underpinning philosophy and principles of agile
2. The lifecycle of an agile project, including alternative configurations
3. The products produced during an agile project and their purpose
4. The techniques used and their benefits and limitations
5. The roles and responsibilities within an agile project.

Learning Objective

1. Lead with agile frameworks, boosting project management skills.
2. Manage backlogs and user stories for streamlined development.
3. Coach agile teams, enhancing collaboration and efficiency.
4. Master agile principles for effective project management.
5. Drive product focus through scrum meetings and sprint reviews.
6. Use MoSCoW, timeboxing, and user stories effectively.
7. Implement agile task management for efficiency.

What Include?

1. Official AgilePM Foundation examination - to be taken within 12 months from the date of purchase
2. Full tutor support by phone or email for the duration of your learning
3. Online exam with remote invigilation

Syllabus (Sessions)

Session 1
Course introduction - what is agile?

Introduction to the basic concepts of AgilePM and its history, along with its eight underlying principles.

01

02

Session 2
Roles and responsibilities

Introduces the recommended roles and responsibilities.

Session 3
Instrumental success factors, DSDM process and products

This session focuses on three essential parts of DSDM. It starts by discussing how ISFs contribute to success. Then, it delves into the process model that aids the method and the project's products.

03

04

Session 4
Planning and control

In this session, we'll see how Agile handles change over sticking to plans. We'll cover planning, testing, tracking, and control concepts. Also, we'll outline how DSDM plans and maintains quality throughout the project's life.

08

Session 8
Exam simulator

A timed exam simulator, which provides access to a comprehensive database of practice questions.

Session 7
Exam technique

This session introduces users to the format of the AgilePM Foundation exam and provides some valuable tips when taking the examination.

07

06

Session 6
MoSCoW prioritisation and timeboxes

IThis session looks at techniques such as the MoSCoW principle and the concept of timeboxing in an agile project.

Session 5
Daily stand-ups and other DSDM practices

A detailed look at the concept of daily stand-ups and how AgilePM uses different techniques to improve project communications.

05

Who is the target audience?

1. Project managers at various experience levels.
2. Individuals new to the project management field.
3. Team members and stakeholders involved in projects.
4. Professionals aiming to enhance their understanding of Agile Project Management principles.
5. Those seeking to obtain the AgilePM Foundation certification.

What is the required pass mark to be eligible to earn an AgilePM Foundation certificate?

To be eligible to earn a certificate after the training course, you'll need to get at least 25 correct answers (out of 50) in the 40-minute foundation exam

Does the course cost cover the exam fee?

Yes, it does, but you'll pay extra if you want the AgilePM manual (for product managers)

Exam format

For the Foundation 2014 exam aligned to Handbook v2.0:

- Multiple-choice format
- 50 questions per paper
- 25 marks required to pass (out of 50 available) - 50%
- 40 minutes duration
- Closed book

Duration

The e-learning for the Foundation training will take around 8 - 10 hours to complete.

Pre-Requeset

There are no mandatory prerequisites to do this course, but you must have completed the training to take the certification exam.

How you take exam?

You will take your exam online via proctor once you have completed the e-learning in full.
